OBJET : Extension - Permit # ISP – 1019879 & 1019869

Sir,

We hereby inform you that your provincial permits ISP # 1019879 & 1019869 are extended until June 07, 2024.

This extension allows for enough time to validate the latest revision of your quality control manual (CSA-B51 - ISO) and verify the application of your quality control program. The extension allows you to continue your CSA-B51 type manufacturing activities at the facilities located at 7007, Côte-de-Liesse in Montreal and at 1010, rue Cowie in Granby.

The extension will lapse upon the occurrence of the first of the following two possibilities: the date of issue of the new Provincial Permits or June 07, 2024.

Sincerely yours,

Aziz Khssassi, ing.
AIA Program Coordinator
