

Direction générale des inspections

Montréal, May 1st 2025

Mr. Dennis Budgen
Senior Specialist Quality Systems
Velan Inc.
7007, Côte-de-Liesse
Montréal, Québec
H4T 1G2

OBJET : Extension - Permits # ISP – 1008209, 1019879 & 1019869

Sir,

We hereby inform you that your provincial permits ISP # 1008209, 1019879 & 1019869 are extended until **November 4th, 2025**.

The extension allows for enough time to conduct the ASME Nuclear audit at both Montreal and Granby Velan facilities and validate the latest revision of your (ISO/CSA-B51) quality control manual.

The extension allows you to continue your CSA-B51 and CSA-N285.0 type manufacturing activities at the Montreal facility located at 7007, Côte-de-Liesse, Montréal and the CSA-B51 type manufacturing activities at the Granby facility located at 1010, rue Cowie in Granby.

The extension will lapse upon the occurrence of the first of the following two possibilities: the date of issue of the new Provincial Permits or **November 4th, 2025**.

Sincerely yours,

Aziz Khssassi, ing.
AIA Program Coordinator
